Volume 17 Author and Subject Index

aberrant response patterns, 143
adaptive test design, 277
ADTEST, 28
Andrich, D., 253
appropriateness fit, 143
area measures, 39
attitude measurement, 21, 253

Baker, F. B., 20, 201, 239, 335
Batley, R-M., 131
Bejar, I. I., 389
bias detection, 297
Blackman, N. J-M., 211
Boquist, D., 296
Boss, M. W., 131

CALIS, 73
Camilli, G., 379
characteristic curve, 239
cognitive processes, 389
cognitive structure, 117
Cohen, A. S., 39, 335
Collins, L. M., 196
common-item design, 177
componential models, 117
computerized adaptive testing, 277
concurrent validity, 143
confirmatory analysis, 117
confirmatory factor analysis, 73
constrained adaptive testing, 277
content validity, 117
correlated traits, 131
correlates of growth/decline, 53
Cortina, J. M., 143
covariance structure analysis, 17
covariance structure models, 365

De Ayala, R., 393
delta method, 225
derived scores, 11
developmental scores, 379
difference scores, 1, 15
differential item functioning, 39, 101, 105, 297, 335
differential traits, 131
DIMENSION, 252
DIMTEST, 29
distorted responses, 143
Dudley, W. N., 296

Edwards, A. L., 21
EQS, 73
EQUATE 2.0, 20
equating, 225, 239, 379
error of measurement, 1, 15
error rates, 201
essential independence, 29
essential unidimensionality, 29
Everson, H. T., 297
exact tests, 187
expert systems, 151, 277
exponential function, 17
EzPATH, 73

fan-spreading, 53
FOX-PATH, 296
Frederiksen, N., 389

GOMDS, 394
Gonzalez, R., 21
goodness of fit, 365
graded response model, 335
Grego, J. M., 238

Haase, R. F., 295
Hambleton, R. K., 293
Hanson, B. A., 225
Hattie, J., 252
heuristic algorithms, 151, 167
Holland, P. W., 101
Humphreys, L. G., 11

incremental fit index, 365
index of agreement, 211
information function, 351
interrater reliability, 211
intraclass correlation, 211
IRT scaling, 379
item bias, 39, 101, 297
item response model, 351
item response theory, 39, 143, 151, 239, 253, 293, 335

Kane, M., 389
kappa statistic, 211
Kim, S-H., 39, 335
Klauer's test, 187
Kolen, M. J., 225
Koval, J. J., 211
Krakowski, K., 252

latent trait theory, 253
Levin, J., 17
Levine equating method, 177
LINCS, 73
linear equating, 177, 225
linear logistic test model, 117, 201

linear programming, 151
Liou, M., 187
LISCOMP, 73
LISREL 7, 73
LISREL, 17
logistic regression, 105
Lord's χ^2, 39
Luo, G., 253

MacCallum, R. C., 365
Mantel-Haenszel statistic, 105
Martz, J. M., 394
mathematical programming, 151, 167
maximum likelihood estimation, 365, 379
May, K., 293
measurement bias, 297
measurement of change, 53
Medina-Díaz, M., 117
Methodology Review, 297
Millsap, R. E., 101, 297
Mislevy, R. J., 389
misspecification, 201
multidimensional item parameter estimates, 131
multidimensional item response theory, 131
multidimensional trait estimates, 131
multidimensionality, 29
Muraki, E., 351

Nandakumar, R., 29
National Assessment of Educational Progress (NAEP), 351, 379
nominal response model, 239
nonuniform DIF, 105

objective measurement, 196
Olea, J., 28
overcrossing, 53

pair comparison, 21
parameter estimation, 201, 365
partial credit model, 351
Pearlman, M., 167
person fit, 143
person-fit indexes, 187
planning experiments, 11
polytomous item response model, 351
Ponsoda, V., 28
power, 1, 11, 15
POWER, 295
PRASCH, 238
predictors of growth, 53

quadratic assignment, 117
quadratic loss function, 239

range of talent, 11
Rasch models, 187, 196, 253
Raykov, T., 53
regression to the mean, 53
RELCOEF, 72
reliability, 11
Revuelta, J., 28
Rogers, H. J., 105, 293

scale shrinkage, 379
scaling, 21
Schmitt, N., 143
score equating, 225
Scymanski, G., 72
significance tests, 1, 15
simplex, 17
SIMPLIS, 73
Software Review, 73
stability index, 17
standard error of equating, 177, 225
Stocking, M. L., 151, 167, 277
structural equation models, 53, 365
successive intervals scaling, 21
Sugawara, H. M., 365
Swaminathan, H., 105, 293
Swanson, L., 151, 167, 277

t test, 1, 15
test assembly, 151, 167
test assembly algorithms, 277
test bias, 297
test construction, 151, 167
test design, 151, 167
test reliability, 1, 15
test theory, 11, 389
Thurstonian scaling, 21
Trevisan, M. S., 72
true change, 53
true scores, 1, 15
Tucker equating method, 177

unfolding data, 253
unidimensional scaling, 253
unidimensionality, 29
uniform DIF, 105

validation, 117
vertical equating, 379

Wainer, H., 101
Waller, N. G., 73
Wang, M., 379
weight matrix, 201
Whitney, D. J., 143
Williams, R. H., 1, 15

Wilson, M., 196

Yamamoto, K., 379
YeomanDG, 393

Zeng, L., 177, 225
Zimmerman, D. W., 1, 15
Zumbo, B. D., 1, 15
